25X1A MEMORANDUM FOR: Chief, [REDACTED] PO432/SPO, NSA
ATTENTION: [REDACTED]
FROM: Chief, CIA/PID (NPIC)
SUBJECT: Search of Vicinity of Kirov Airfields for
Unusual Installations
REFERENCES: (a) Requirement [REDACTED]
(b) CIA/PID Project C 436-64

25X1A

1. This memorandum is in response to your requirement dated 20 February 1964 which requests a search of [REDACTED] photography of the vicinity of Kirov (58-37N 49-46E) and Kirov North (58-39N 49-38E) Airfields for any unusual or separate logistical facilities that might be related to the Soviet ICBM program.

2. The area in question was covered by good quality, stereo, cloud-free photography both in [REDACTED]

25X1D

[REDACTED] The vicinity of the referenced airfields was searched thoroughly on both of these coverages with negative results. These are relatively unimproved airfields located close to the city of Kirov with numerous industrial facilities located nearby, thus making the identification of an installation of unknown configuration difficult on the basis of KEYHOLE photography alone.

3. The photo analyst on this project is [REDACTED] who may be contacted on extension [REDACTED] should you have any further questions concerning this project.

25X1A

4. This project is considered to be complete.
